

ACS58090AGM Product Data Sheet

Issue Date: 23/05/2017

Issued By: R & J Batteries PTY LTD

Technical Information

ACDelco #58090AGM is a premium quality, fully-sealed AGM battery designed for modern vehicles including those equipped with Idle-Stop-Start and/or regenerative braking systems. The highly efficient absorbent glass mat design makes the 58090AGM battery an ideal upgrade for all high-performance and luxury vehicles where improved battery performance and life are desirable.

Features and Benefits

- Fully-sealed VRLA design – won't leak or corrode
- Ideal for Idle-Stop-Start & Regenerative Braking systems
- Designed for both cranking and cycling
- Maintains high cranking power at low state of charge
- Rapid charge acceptance
- High-compression AGM separators
- 2X longer life than conventional batteries

Applications

Audi
BMW
Chrysler / Jeep
Mercedes Benz
Porsche
Volkswagen
Volvo

Technical Specifications

Battery Type:	AGM	Container Material / Colour:	Polypropylene/Black
Voltage:	12	Lid Type / Colour:	Polypropylene/Black
Capacity (@20hr rate):	80ah	Plate Type:	Full-Frame Calcium + High Tin Content
Cold Cranking Amps -18°C, SAE:	800	Separator Type:	Absorbent Glass Mat
Cold Cranking Amps - 0°C SAE:	N/A	Anti-Vibration:	High-Compression Glass Mat
Reserve Capacity:	140 mins	Assembly Layout:	0 (RH Positive)
Overall Dimensions:	314L x 175W x 190H	Terminal Type:	SAE
Wet Battery Weight:	23kg	BCI Group / DIN:	DIN77H-AGM
