

## Technical Information

R&J Batteries Part # BC52-208 is a custom-made battery joiner cable made specifically for linking sets of GC2 or GC8 batteries in gold carts, floor scrubbers, scissor lifts etc.

These heavy guage cables are fitted with 8mm LUGS (eyelets) for a perfect match to the STUD terminals of all GC2 6 volt and GC8 8 volt batteries. # BC52-208 is also ideal for linking sets of fullriver 6 volt batteries with M8 threaded insert terminals.

Features and Benefits include:

- Heavy Duty 2 B&S Cable
- Ensures Sufficient Capacity For All Applications
- Correct Length For Use On 6 Volt And 8 Volt Batteries
- 8mm LUGS (Eyelets) Matched To GC2 & GC8 Stud Terminal Size
- 8mm Eyelets Matched To Fullriver 6 Volt M8 Terminals
- Replacing Old/Corroded Cables Ensures Maximum Battery Performance.

## Technical Specifications

Joiner Length:  
260mm

Cable Gauge:  
2 B&S

Cable LUG Size:  
8mm, 5/16 inch

Capacity Rating:  
188 Amps Continuous

## Applications

Golf Cars

Floor Scrubbers

Scissor Lifts

UPS
