

## Technical Information

Delkor 80D26L is a premium quality maintenance free battery designed for automotive and commercial applications. This battery has the larger BCI style hold down ledge which is required in most Hyundai & Kia applications manufactured after 1999 to ensure the battery is positively retained by the hold down clamp.

This battery will also fit other vehicles (e.g. Mazda, Toyota, Nissan) where a JIS D26 battery is required. Note that this battery will not fit a 2007-2014 Nissan X-Trail Petrol (ledge interference).

## Features and Benefits

- Patented PowerFrame® positive grids extend life
- Lead Calcium Maintenance Free
- High tin content resists corrosion
- Low self discharge
- Larger hold down ledge required for Hyundai & Kia fitments

Applications
