

Technical Information

Predator Motorcycle and Powersports batteries are made by one of the world's leading AGM battery manufacturers, offering a world class battery at a value for money price.

The Predator YTZ12-14S is a factory activated Absorbent Glass Mat (AGM) battery which is spill proof and maintenance free. The YTZ12-14S delivers improved cranking power and superior vibration resistance.

This battery has been specially designed to replace both YTZ12S and YTZ14S flooded and AGM variants.

Features & Benefits

- Improved cranking power
- Superior vibration resistance
- Factory activated
- Spill proof
- Maintenance free
- Low self discharge

Replaces

YTZ12S

YTZ14S

Technical Specifications

Battery Type	Absorbent Glass Mat (AGM)	Case Material / Colour	Polypropylene / Black
Nominal Voltage	12V	Plate Type	Cast
Capacity (10Hr)	11.2Ah	Separator Type	Glass Mat
Rated CCA	230A	Assembly Layout	LH Positive [+ -]
Case Size (LxWxH)	150 x 88 x 110mm	Terminal Type	Lead
Nominal Weight	3.82kg	Factory Activated	Yes
