

Technical Information

The Delkor 8D-1500 is a super heavy duty, maintenance free battery designed for extreme service environments such as Mining, earthmoving and broad acre agriculture.

Based on the normal 8D (N200) size case, the 8D-1500 has higher CCA, RC and AH to deliver longer lasting performance in demanding applications. It has thicker heavy duty expanded grid plates for maximum durability.

Features and Benefits

- Sealed Maintenance Free
- Heavy commercial grade expanded metal plates
- Lead Calcium with high tin content
- Liquid-gas separator to minimise electrolyte loss

Applications

Mining

Earthmoving

Heavy Haulage

Broad acre agriculture

Technical Specifications

Battery Type:	Sealed Calcium/Calcium	Container Material / Colour:	Polypropylene / Black
Voltage:	12 V	Lid Type:	Heat Sealed Polypropylene
Capacity (@20hr rate):	210 Ah	Plate Type:	Lead/Calcium/Tin expanded metal
Cold Cranking Amps -18°C, SAE:	1500	Separator Type:	Low Resistance Envelope
Cold Cranking Amps - 0°C SAE:		Anti-Vibration:	Yes
Reserve Capacity:	440 Min	Assembly Layout:	RHP
Overall Dimensions (mm):	L 510 x W 275 x TH 238	Terminal Type:	SAE
Wet Battery Weight:	TBC	BCI Group: (JIS)	8D
