

## Technical Information

The Delkor LN6 is a superior quality calcium/calcium, AGM DIN 100 sized AGM battery. The superior construction qualities include the latest PowerFrame plate grid technology for significant improvements in durability and performance, vibration resistance and extremely high cranking power.

The unrivalled quality of Delkor has seen their Korean manufacturing facility awarded 1st place in the coveted Korean Excellence In Manufacturing Award for 12 consecutive years (2006-2017).

## Features and Benefits

- Patented PowerFrame plate construction
- Unique high density active material on plates
- Built in hydrometer
- Full sealed but with safety of valve regulators
- Flame arrestors on vents
- Absorbed Glass Mat (AGM) Separators
- High strength polypropylene case

## Applications

Japanese vehicles
Korean vehicles
Thailand Vehicles
Commercial
4 x 4
European Luxury vehicles
