

Technical Information

Predator #MX15-AUX is an auxiliary back-up battery designed exclusively for use in a wide range of JLR-group vehicles.

The unique design combines high-performance AGM construction based on the premium specification MX series with JIS lead terminals to match OES requirements for Jaguar, Land Rover and Range Rover.

Features and Benefits include:

- Sealed AGM construction
- Maintenance-Free
- New grid design increases continuous cranking time 10 - 20%
- High-rate charge acceptance compatible with smart alternator
- JIS-sized lead terminals to match OE specification

Applications

Jaguar XF
Land Rover Series 4
Land Rover Discovery Sport
Land Rover Freelander
Range Rover Series 4
Range Rover Sport
Range Rover Evoque

Specifications

Battery Type:	Sealed AGM	Container Material /Colour:	Polypropylene / Black
Voltage:	12	Lid Type:	Factory-sealed
Capacity (Ah @20hr rate):	15Ah	Plate Type:	Full-Frame Lead-Calcium-Alloy
Cold Cranking Amps -18°C, SAE:	200A	Separator Type:	Absorbent Glass Mat
Wet Battery Weight:	5.8 Kg	Assembly Layout:	1 (LH Pos)
Overall Dimensions:	L 150 x W 88 x H 147	Terminal Type:	JIS (small post)
