

# Zenaji Eternity Battery

Introducing the battery for the future

Available first quarter 2020

30 kWh Capacity

One manageable unit

Easy to Service

Ultra Safe

Temperatures -40° to 60°C

Fully scalable from  
Kilowatts to Megawatts

Easy to install

Lasts for over 30 years

Huge surge current  
capability

1.5m (h) x 1m (w) x 1m (d)

# LARGER & SPECIALTY APPLICATIONS

Zenaji has developed 30 kWh (Kilowatt/hour) solutions for:

- Light Commercial / Industrial
- Larger Residential
- Telecommunications
- Emergency / Portable Power
- Large Scale UPS
- Data / Processing Centres
- Farming and Micro-grid

Zenaji has designed 1 MWh (Megawatt/hour) solutions for heavy industry applications including:

- Solar Farms
- Wind Farms
- Hospital Backup
- Communities / Substation

Our modular design approach enables us to solve unique power problems.
